THE ANNE ISABELLA SCHOLARSHIPS.

1. The following are the terms of a deed of the above scholarships as amended by the Senate at its meeting held on the 21st March 1902:—

Three scholarships were founded for promoting the study of Medicine amongst Native Christians of Southern India by Edward Isabell Scholaryship, B.A., LL.B., of Madras, Barrister-at-Law, in memory of his late wife Anna Isabella Scholaryship. The first endowment was accepted by the Senate on the 21st September 1890, the second endowment on the 21st April 1900, and the third endowment on the 21st August 1901 and the endowments now amount in the aggregate to Rs. 15,000.

2. The endowment for each scholarship consists of Rs. 5,000 invested in 4½ per cent. Government securities, the interest accruing from which is to be divided for the support of a student in Medicine in the Madras Medical College studying for the Degree of Bachelor of Medicine and Master of Surgery of the University of Madras.

3. In the event of a scholarship not being awarded in any year, the amount interest shall be added to the trust funds. The interest accruing from such accumulations shall be utilized in rateably increasing the amount of each scholarship, subject to a maximum of Rs. 25 per annum. The surplus interest accruing from the trust funds over and above the above sum per annum per scholarship shall, as the Senate of the University determine, be applied in endowing new or other scholarships in the University, or in the purchase of a medal or prize to be awarded to any student of the University whom the Senate may select for encouragement in the study of Medicine.

4. It shall be lawful for the Senate of the University, from time to time, with the consent, during his lifetime, of the founder, to make new regulations with respect to the scholarships, always provided that they do not divert it to any other purpose than the encouragement of the study of Medicine by Native Christians.

5. In any event occurring to prevent the following rules from being carried out, it shall be lawful for the University to apply the trust funds of these scholarships in such manner as will carry out the object of the founder, viz., the promotion of the study of medical science by Native Christians of Southern India.

6. The rules that have been found are as follows:—
[a] The scholarships shall be called the "Anne Isabella Scholaryship Scholarships".

(3) By the terms of the deed of endowment given to the University of Madras, Volume I, for 1878-1880, page 218) the scholarships are open to Native Christians, males or females, of the Presidency of Madras, or of the states of Mysore, Travancore, Cochin or Pondicherry. A scholarship will be awarded each year to a student entering the Madras Medical College in the first year's class at the commencement of the Degree of Bachelor of Medicine and Bachelor of Surgery of the University of Madras. It shall be awarded by the Syndicate on the recommendation of a committee of three members of the Faculty of Medicine of whom the Principal of the Madras Medical College shall be one.

(4) A scholarship shall be tenable under existing rules for five years or for the period required to qualify for the M.B. and Ch.B. degrees of the University of Madras.

(5) Failure to pass any one of the examinations for the Degree of M.B. and Ch.B. of the University of Madras at the earliest opportunity on which the holder is admissible to it entails forfeiture of the scholarship. In the case of failure to pass one such examination, however, the Syndicate, on the application of the holder of a scholarship, may merely suspend the scholarship for one year. If the holder be successful within this period, it shall be liable for the Syndicate to resume the scholarship for the remainder of the period for which the holder may be entitled to it.

(6) It shall be lawful for the Syndicate to declare that the holder of a scholarship has forfeited it for any misconduct which they may consider a sufficient cause for such forfeiture, and there shall be no appeal from the decision of the Syndicate.

II. In accordance with the above terms of award of the Anglo-Indian Brahminayan Scholarships it is hereby notified that one scholarship is now vacant. Applications for the same should be submitted to me (a) with the Registrar on or before the 30th April 1909.

NOTIFICATION.

The tomb of William Clavering—the circumstances connected with whom are given below—appears from the records to be situated 60 yards to the north of the traveller's baggage between two hedges near at Hooper, Ballary District; but on the ground there is no trace of the tomb at that position. There are, however, some neatly packed stones resembling a tomb between two hedges near to the north of the traveller's baggage, but there is no evidence that this is William Clavering's tomb.

This tomb is in a ruinous condition and it will be levelled with the ground under O.O., No. 497 W., dated 19th April 1907, if the relatives or friends of the deceased fail to take steps to restore it within six months from this date.

Yours,

From, postscript and age.

18424

William Clavering, aged 25 years.

The circumstances of his death are as follows.—He landed from England in May 1882, and in the latter part of 1884 was engaged in laying the telegraph line from Ballary to Swambenahad. While on the point of joining the working party, which was repairing the Tongothode river some few miles above Hampdenburg, he was attacked by cholera and died, in the Hospital Traveller's baggage. He was a man of good birth, and closely connected with the family of Clavering in Northumberland, and had he lived a few months longer would have succeeded to a Baronetcy. A short time after his death a Government agency was instituted and a report sent in by Mr. Briscoe, at that time Superintendent of Telegraphs. Mr. Jones was present at the time of the death; and Mr. O. Brown, now store-keeper at Kinnaird, was also a member of the working party.

Ballary Collector's Office,
24th April 1907.

Collector.

The Standard Barometer and Thermometer are read at 5 a.m., 10 a.m., 3 p.m. and 8 p.m., and the daily means are obtained by the application of hourly corrections, deduced from twenty years' observations. The centre of the Barometer is twenty-five feet above the level of the sea, and the reservoir of the Rain Gauge is two feet from the ground. The wind, rain and general weather registered are for the current Civil Day—from midnight to midnight.
